

Do you have
what it takes to
be a **life saver**?

Yes, you do! Take a few moments to learn the lifesaving skills of CPR and Choking Relief via the American Heart Association's on-campus training sessions. Join college students across the country to become the next **Generation of Lifesavers™**. It is fast, easy, and rewarding to learn CPR.

“ I was in college, so learning something new was nothing, well, *new*. The CPR training was right on campus, so why not learn the skills? It was convenient and easy.

**American
Heart
Association®**
life is why™

Fast forward 12 years to a party at my parents' home. I'm thankful I was there and able to save my father's life after he collapsed in the midst of the festivities.
